Section VII.—Retail Price Index-Numbers—Food, Groceries, Housing, etc.

Note.—The index-numbers on this and the next three pages are related to the post-war period 1923-1927. The average prices for these five years for the Six Capitals are made equal to 1,000. In these tables the rent of 4 and 5 roomed houses only is taken into account.

The index-numbers of food and housing formerly used by the Commonwealth Arbitration Court for the fixation and adjustment of wages are given on succeeding pages (pp. 76, 77). For these the base is 1911. The same food prices are used, but the rent of all houses of any number of rooms is taken into account, so that the index may be briefly described as the "All Houses" Index. ("A" Series.) The index numbers now used by the Arbitration Court are the "C" Series published on page 75.

Retail Price Index-Numbers.(a)—Capital Cities.

"B" Series.

Base in each Section: —Weighted Average of Six Capital Cities during five-yearly period 1923-1927=1,000.

Note.—The index-numbers given in the separate parts of the table cannot be compared with each other in order to show the relative cost of housing, and food and groceries, since the cost in 1928-1927 in each group or combination is made equal to 1,000.

THE "ALL HOUSES" INDEX.

("A" Series.)

Note.—The index-numbers on this and the following pages are those prepared for the Commonwealth Arbitration Court (see note at head of page 72). They are related to a different base period (1911), and take into account the rent of all houses.

For further explanation on this subject, see Labour Report, 1930, Appendix VIII., which is also published separately under the title of "Wages and Prices".

Retail Price Index-Numbers (Food, Groceries, and Housing—All Houses), with Weighted Average for the Six Capital Cities in 1911 as Base = 1,000.
